

The Berkshire Osteopathic Study Group Meeting

Continuing Studies in The Biodynamics of Osteopathy "Dr. Still and the Spirit and Science of Osteopathy"

Special Guest Speaker Jason Haxton, MA, DO (h.c.)
Director, Museum of Osteopathy, Kirksville, Missouri

November 11-12, 2017 at Williams Inn, Williamstown, Massachusetts
Meeting Director: Stephen Kisiel, DO

The BOSG is welcoming interested Osteopaths and Osteopathic Physicians to join us in an exploration of the practical application of osteopathy as experienced from a Biodynamic view. It will be shared at an advanced level and is designed for those who have completed at least Phases I – VI of the Biodynamics of Osteopathy curriculum and have several years of clinical experience working with these principles in their patients. Exceptions may be made on an individual basis. Practical sessions will be led by the presenter for all in attendance to follow along in the same manner as during the phase courses. Participants are expected to be at a level where they can individually deepen their relationship with exploring the vast landscapes of Primary Respiration and The Health directly. The intention for this meeting is to create a forum for sharing and exploring Osteopathy together as a community. CME credit is pending approval.

Saturday, November 11th

- 8:15a-8:30a Registration
